A global apparel sourcing powerhouse within the **RTS GROUP** — delivering innovation, compliance, and sustainable growth across international markets since 2021.

RTS GROUP ECOSYSTEM

Global Apparel Sourcing & Supply
Chain

Who We Are

Founded in 2021, **OUTFIT VENTURE** is a key entity of the **RTS Group** — a globally connected organization committed to excellence in apparel sourcing and supply chain management. With a strategic presence across Asia and Australia, we bridge world-class brands with premium manufacturing capabilities.

2021**Year Founded**

Over 5 years of consolidated industry expertise

3**Global Offices**

Strategic operational hubs across 3 countries

4**Group Entities**

Specialized concerns under the RTS Group umbrella

RTS Group — Our Ecosystem

OUTFIT VENTURE operates alongside four specialized sister concerns, each contributing distinct capabilities to the group's fully integrated sourcing model.

OUTFIT VENTURE

International apparel sourcing, global supply chain integration, and strategic buyer relations management.

PHYSIC CLOTHING

Precise apparel retail clothing stores, e-commerce operations, and direct-to-consumer online sales platforms.

OUTFIT CREATION

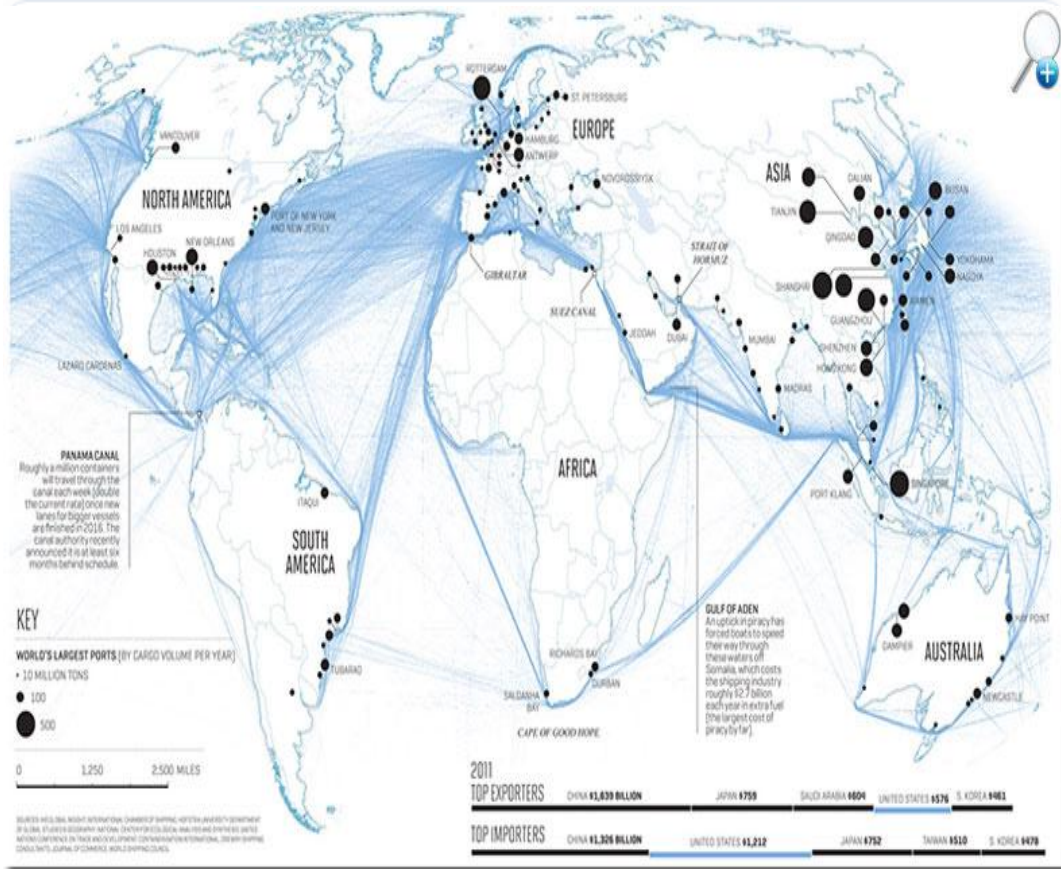

Premium product development, rapid prototyping, technical design, and rigorous quality assurance management.

ARVIN TEX

Advanced textile innovation, sustainable raw material sourcing, fabric R&D, and mill coordination.

Market Reach

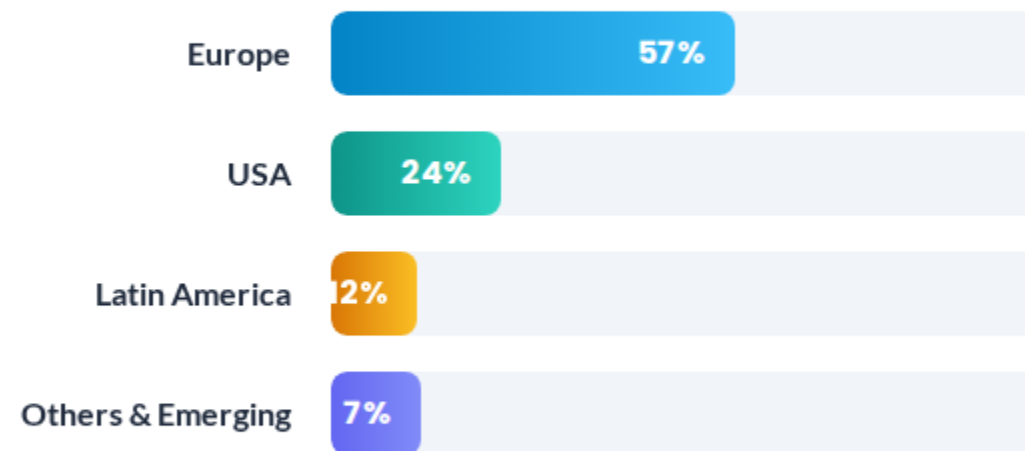

OUTFIT VENTURE serves a diverse international clientele with a strong concentration in Europe, complemented by a growing presence across the Americas and beyond.

A Europe-Led Portfolio

With **57% of sales in Europe**, OUTFIT VENTURE maintains deep relationships with established European retailers and apparel brands.

The **USA represents a strong secondary market at 24%**, while Latin America and other emerging markets offer significant strategic expansion.

 **Diversified market mix reduces dependency risk and supports long-term revenue stability.**

Product Portfolio

A balanced mix of apparel categories positions OUTFIT VENTURE to serve a wide range of retail segments — from everyday casual to premium formalwear.

- Kidswear & Denim — 33%**
Children's fashion, organic kidswear, and premium denim ranges
- Knit & Activewear — 30%**
Nightwear, performance activewear, and specialized knitwear
- Formal Wear — 27%**
Tailored suiting, woven shirts, and structured occasion garments
- Casual & Accessories — 10%**
Everyday essentials, lifestyle apparel, and complementary accessories

Innovation Through Technology

OUTFIT VENTURE leverages cutting-edge digital tools to accelerate development cycles, compress lead times, and eliminate physical material waste.

3D Design with CLO

Full 3D pattern creation on digital avatars — reducing physical sample iterations and drastically compressing turnaround times.

Faster Decision Making

Real-time high-fidelity 3D rendering enables global buyers to evaluate and approve styles before physical samples are made.

Reduced Environmental Footprint

Significantly fewer physical samples directly lowers material consumption, shipping logistics, and carbon emissions.

Strategic Manufacturing & Supply Chain Partners

Partnering with premier apparel & textile conglomerates to ensure compliance, scale, and world-class execution.

CORE VALUE PROPOSITION & CAPABILITIES

- Fully compliant, LEED-certified green facilities across woven, knitwear, denim, and specialized outerwear.
- End-to-end multi-factory sourcing, competitive SMV costing, and rigorous quality control for global brands.

Compliance & Sustainability

OUTFIT VENTURE maintains rigorous ethical and environmental standards, backed by internationally recognized certifications and an onsite compliance monitoring network.

GOTS

Global Organic Textile Standard — Ensures organic fiber integrity from harvesting through environmentally and socially responsible manufacturing.

ISO 9001:2015

Quality Management Certification — International benchmark for operational consistency, quality assurance, and continuous process improvement.

OEKO-TEX Standard 100

Textile Safety Verification — Independent third-party testing verifying every component is completely free from harmful substances.

Global Recycled Standard

GRS Certification — Verification of recycled material content, chain of custody, and strict social and environmental processing criteria.

All partner manufacturing facilities are continuously audited by dedicated onsite compliance operatives.
